Fractal Conjugate Space & Time: Cause Of Negentropy, Gravity And Perception: Conjuring Life: "The Fractal Shape Of TIME" Geometric Origins Of Biologic Negentropy..

Synopsis

Undoubtedly the most radical breakthrough hypothesis since the dawn of science: That ONE single golden ratio phase conjugating caduceus implosive self-organizing frequency cascade precisely tuned to Planck time/length (Fractal Space and Time)- is the cause of- gravity- all negentropy and life force (and coincidence: as charge coupling by charge rotation called $\hat{time}^{\text{TM}}$)- vacuum coherence / zero point energy- perception- the core concept of all spirituality: a selectively pervasive universal living field effect which communicates survival-using lawful wave mechanics- literally the collective mind. Includes the specific frequencies (optic/magnetic/electric conjugate pump wave) then to repair:- gravity (and therefore atmosphere), - life force (rejuvenation / bioactive healing fields),- perception (attention deficit for example), and - negentropy (all wave systems which need to emerge from Chaos- for example: Gaia). All the calculations in this book- are original discoveries of Dan Winter. They show $\hat{}$ " hydrogen dimensions, schumann frequencies, photosynthesis frequencies, sacral cranial frequencies, earth orbit time, venus orbit time- (the brainwave frequencies of bliss, the frequencies PRIORE used to heal) these and MANY other dimensional fundamentals of self organized systems $\hat{}$ " ALL turn out to have ONE newly discovered incredibly fundamental (and negentropic) thing in common. They all are significantly if not exactly integer golden ratio exponents of planck time/length. There is an attractive gravity to this $\hat{}$ | Being phase conjugate by golden ratio to the key signature of the vacuum IS negentropy $\hat{}$ | and LIFE! Dear Physicist: if you don't agree that golden ratio phase conjugation causes gravity- then what is YOUR explanation for why golden ratio multiples of Planck predict hydrogen structure??

I just bought this book earlier in the afternoon today and I could not put it down. There were some aspects of Walter Russel's science that I couldn't get a handle on but thanks to Professor Winter I can now proceed to actually building some hardware with the knowledge, These projects will involve the making of quantum windows and quantum lenses. There is nothing more refreshing than a conjugate perspective on a subject to render it crystal clear. Just a word of advice for those steeped in the nomenclature of conventional academia, give yourself some time to accustom yourself to Dr Winter's unique teaching technique. His delivery is often frustrating to those who are new to it. Allow yourself to see these new-age multidimensional concepts through the eyes of your heart and your imagination. The Universe, for one reason or another, is not what you have imagined it to be... :-)

In my quest to find "tangible" explications for "untangible" phenomena, Dan Winter has illuminated my path extensively, with easy to understand, tangible correlations between "spirit" & "science". He is truly a Most Grand & Most Appreciated Teacher

Dan Winter's new book is about: that fractality in space and time is the specific mechanism and cause of gravity... biologic negentropy, life force, perception, and human bliss.

Good for a laugh, classic crank physics. It showed up as spam in my email since he's stuffing mailboxes in physics departments, and I teach at NCSU.
