Customer Reviews

There are a few books that I have encountered in my years - books that have not only changed me for their reading them, but changed the very way that I look at the world. The Tracker, by Tom Brown is one of these. The Tracker chronicles the boyhood and amazing exploits in early life of Tom Brown-outdoorsman, conservationist, environmental activist and 'tracker' in the tradition of Apache Scouts of the American southwest. A tradition and way of life taught to him by his friend and adopted Apache Grandfather Stalking Wolf. From their first meeting when Tom was seven years old a relationship and mentoring grew and forever altered an Irish-American boy growing up in the Pine Barrens area of southeast New Jersey. Tom gains training that will forever alter the way he looks at and relates to the world both physically and spiritually. Tom Brown was always a bit different in his boyhood interests. While other New Jersey boys in the 1960s were eager to bicycle to vacant lots for baseball or touch football - Tom would lie on his stomach in his backyard for hours watching the coming and going of insects, or closely study the natural wonder locked in a wildflower's structure. His collection of animal skulls and other natural curios brought to 'show and tell' shocked his school

teachers. He felt alone and misunderstood completely until a chance meeting with Rick, a boy with similar interests that would make him Tom's best friend, cohort, and blood brother for life. Even more fantastic would be the relationship Tom would discover with Rick's 80-some year old Apache Grandfather Stalking Wolf.
