## Synopsis

The Kordolians are loose on the asteroid mining station Fortuna Tau, and first-rank mechanic Jia Morgan has become caught up in the thick of things. Under the careful watch of these steely-eyed silver warriors, Jia and her team have been tasked with repairing the hull of the Kordolians' Alpha-Class battle cruiser, Silence. The problem is, their alien technology is far, far beyond anything she's seen before, and whatever they try to weld to Silence's black hull just won't stick. When Jia goes in search of a tool that might actually penetrate the warship's impossibly strong Callidum exterior, she finds herself being aided by a most unlikely source. The hard-faced warrior who's decided to accompany her walks on silent feet and carries a big, big gun. He's equal parts scary and attractive, in an otherworldly sort of way. But although Jia finds this Kordolian fascinating, she's not even going to try and get close to him, because, well, he's a freaking Kordolian, and Kordolians aren't exactly known throughout the Nine Galaxies for being nice and warm and fuzzy. Instead, she's going to do her job and fix their warship, because that's the only way these intimidating warriors are ever going to leave Fortuna Tau. Hopefully, they won't break anything, or anyone, on the way out. Oh, and there's also the small matter of these flesh-eating insect-aliens called Xargek. Apparently, they bite. Warning: This book is a science-fiction alien romance. It contains swearing, violence, sensual sex scenes and silver aliens with fangs. It's definitely recommended for readers aged 18 and over. Out of Darkness is Book Four in the Dark Planet Warriors Series. It will make more sense if you've read the other books first, although that's probably not absolutely essential.

## Customer Reviews

This series is formidable. I love the main characters of this series which are Tarak and Abbey, but the second characters who have their own books are just as awesome. The first of Dark Planet Warriors started so strongly with the introduction of the first division of Kordolians that like all readers who love this series, I wanted to know more about them. They are so mysterious and enthralling. So dangerous and sexy. And this is the first book in the Serie, and not the last (big relieved sigh), which brought us back to the beginning, to Fortuna Tau and tell the tale of Kalan, second in command of the first division of elite kordolians, and Jia Morgan, a human mechanic on the asteroid station. With the arriving of kordolians, Xargek, their enemy are invading the space station, and all hell broke lose. And the author doesn't deceive. The infestation and hunt to eradication is very well written. I love a good aliens, flesh eating-monsters infestation, trying to eat human. While sexy, dangerous and very arrogant kordolians are here to save the day. I love the way the main characters in the story, yet being wary of each other get to know each other and a close relation followed. Their adventure through the galaxy is just ice on the cake. Of course when something is so good, I always want even more, although the lance of the book is very good. It is never enough for me, and I would love to be following them through all their moments... (On earth hunting ground) which makes this book and this serie so great. I always want more, more details... The author has a very fluid writing. There is so many characters, I would love to read about, Lodan, Nythian, Rykal (of course. That on was be fire, with the headstrong Arin Vargas), and many more. Can't wait.
