Customer Reviews

First of all, there's actually only 5 stories in this. Each book is broken into 5 parts. The first three I really liked, the characters had personalities and depth. In the final two, I'll be honest in saying I couldn't get through them (so it might have improved by the end). I read a few chapters of each, but the women were incredibly annoying. Slight spoilers ahead. In the 4th book, the rich guy sleeps with the main female without revealing he's trying to force her dad to sell his home. She finds out, but quickly (less than a day) gets over it and just wants more sex, even knowing how much it'll

hurt and betray her dad. In the last book, the woman is forced into serving as an escort after not reading a contract. Although the guy is an a** to her, when he finally decides to release her from her "job", she decides they're now dating so he can use her past as proof he's not a bad guy.

I liked the whole package of novels. They had me reading more and more. But I hate to find so many mistakes on the text. Words that do not belong, and so on. I strongly recommend doing a microscopic proofreading before releasing any novel.

If you like drama and whiny, weak women and men then this is for you. I saw nothing "Alpha" about the men in these books they were all whiny and entitled. If these were real people I would strongly encourage them to counseling so they could find healthy relationships. I want to root for the couple in a book not against them.

Worst book I ever read. Author could not keep track of her own subjects, given them different names within the same paragraph. She used a thousand words when ten would do. Her male subjects were unbelievable, her female subjects were tired and lifeless. I kept reading to see if it would get better, but it didn't. Glad I DID NOT pay to read it but sorry I WASTED MY TIME, could have been reading something better. Can not give this book any stars. Two stars for the first two books only
